WITH US, IT'S PERSONAL.

In 1983 Fox Valley's most charismatic radio and night club djs combined their best people skills, entertainment ideas and experiences into one dj service. Record Entertainment began, promising every event "All the Music, All the Fun." Each Record Entertainment dj gave 100% of his best - and the company's - to personally deliver that promise. Word spread. Our reputation grew.

IT'S PROFESSIONAL.

Today, Record Entertainment is the top most requested dj service in six counties. We perform over 300 weddings, company functions, fundraisers, class reunions and school dances each year. Our djs are handpicked for their personality, music knowledge and talent. Each completes East Central Wisconsin's most thorough dj company training program, learning from the **Platinum Performers**  who built our reputation.

IT'S ALL THE MUSIC, ALL THE FUN.

Every Record Entertainment dj is comfortable in front of an audience. We know how to mix music and technology with our own entertainment style to create the atmosphere you want. We respond to you and your guests, handle even the "trickiest" situations smoothly, and consistently deliver "All the Music, All the Fun."

IT'S PEACE OF MIND.

Record Entertainment is fully insured. We dj every event we book. No subcontracting to others. We consult with you beforehand - and we listen carefully. We bring the best of all the REI djs combined experience and expertise with us. Our equipment is state of the art, digital and regularly maintained. Back up equipment and djs are on call. Thousands of songs are with us, waiting for "just the right moment." More are available with one keystroke or phone call. When we dj an event, we bring 100% of ourselves ...and the company.

PROMISE.

- Event Emcees
- Ceremony Music
- Professional Light & Sound Equipment Rental
- Karaoke
- Multi Media Memories
- On-air Radio Promotion Packages

PROMISES DELIVERED

In 1983, Record Entertainment gave 100% to its first event, received its first thank you letter, its first referral, and its first recommendation. There have been many since - from newly married couples, parents, even managers of the venues REI dj's at.

This one arrived one year AFTER the couple's wedding:

You were our dj for our wedding (July, last year). Over the past year, we have attended weddings and you are by far the best around. You really entertained our guests and ourselves. My family and I have received many compliments. You played a variety of music and it wasn't too loud like other djs. Also, you got the crowd involved - we have many pictures of the dance floor completely full. Record Entertainment, thanks for making our wedding entertainment awesome!

Pam & Kevin

And from the father of a bride:

...When Courtney called me, asking my advice on what she might do about entertainment for the reception - what service would be expert and understanding of her and R.J's wishes - I immediately and strongly suggested she contact you. The rest is wonderful history. The evening was perfect. From the get go to the final song, and everything in between, you provided a musical evening no one who was there will forget. It was superlative!

Tony

This one came from the mother of a bride:

...According to what I saw, the dance floor was never empty from the time you started to play! People have been telling us what a great time they had. But they're sad because Katie's the only daughter we have. One person said it was a shame we don't have five more girls so we could throw five more weddings.

Thanks Again,
Pam

One hotel manager writes:

We have worked a great deal with Record Entertainment and have found their disc jockey service far superior to many others. The Record Entertainment disc jockeys go out of their way to do more than just play music, they put on more of a show and add to the entertainment value of any given party.
